Patent No. 645566

GENERAL INFORMATION:

APPLICANT: McCall, Catherine A.

APPLICANT: Weber, Eric R.

TITLE OF INVENTION: AND USES THEREOF

FILE REFERENCE: AL-2-C3

TITLE OF INVENTION NUMBER: US/09/292,225

CURRENT PELICATION NUMBER: 60/098,909

EARLIER APPLICATION NUMBER: 60/098,295

EARLIER APPLICATION NUMBER: 60/098,295

EARLIER APPLICATION NUMBER: 60/098,565

EARLIER APPLICATION NUMBER: 60/098,565

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         Sequence 15, Application US/0929225

Patent No. 6455686

GENERAL INFORMATION:
APPLICANT: HUNCEY, Shirley Wu
APPLICANT: HUNCEY, Shirley Wu
APPLICANT: WEBER, Brick
TITLE OF INVENTION: NOVEL DERMATOPHAGOIDES NUCLEIC ACID MOLECULES, PROTEINS
TITLE OF INVENTION: AND USES THEREOF
FILE REFERENCE: AL.2-C3
CURRENT APPLICATION NUMBER: 60/098,909
EARLIER FILING DATE: 1999-04-15
EARLIER PRILING DATE: 1998-05-13

No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          Sequence 4, A

patent No. 6455686

GENERAL INFORMATION:

APPLICANT: Mccall, Catherine A.

APPLICANT: Mcall, Catherine A.

APPLICANT: Meber, Eric R.

TITLE OF INVENTION: ONSELD DEMATOPHAGOIDES NUCLEIC ACID MOLECULES, PROTEINS

TITLE OF INVENTION: NOWEL DEMATOPHAGOIDES NUCLEIC ACID MOLECULES, PROTEINS

TITLE OF INVENTION: NOWER: US/09/292.225

CURRENT APPLICATION NUMBER: 60/098,909

EARLIER APPLICATION NUMBER: 60/098,295

EARLIER APPLICATION NUMBER: 60/098,295

EARLIER APPLICATION NUMBER: 60/098,565

EARLIER APPLICATION NUMBER: 60/098,565

EARLIER APPLICATION NUMBER: 60/098,565

Sequence 18, Application US/0929225

Patent No. 6455666

GENERAL INFORMATION:
APPLICANT: McCall, Catherine A.
APPLICANT: Wheer, Eric R.
TITLE OF INVENTION: NOVEL DERMATOPHAGOIDES NUCLEIC ACID MOLECULES, PROTEINS
TITLE OF INVENTION: NOVEL DERMATOPHAGOIDES NUCLEIC ACID MOLECULES, PROTEINS
TITLE OF INVENTION: AND USES THEREOF
TITLE OF INVENTION: AND USES THEREOF
TITLE OF INVENTION: AND USES THEREOF
CURRENT APPLICATION NUMBER: 60/098, 909
EARLIER FILING DATE: 1998-04-15

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         Sequence 35, Application US/0929225

Sequence 35, Application US/0929225

Patent No. 645566

GENERAL INPORMATION:
APPLICANT: McCall, Catherine A.
APPLICANT: Weber, Eric R.
TITLE OF INVENTION: NOVEL DERMATOPHAGOIDES NUCLEIC ACID MOLECULES, PROTEINS
TITLE OF INVENTION: NOVEL DERMATOPHAGOIDES NUCLEIC ACID MOLECULES, PROTEINS
TITLE OF INVENTION: NUMBER: US/09/292, 225
CURRENT APPLICATION NUMBER: 60/098, 909
EARLIER APPLICATION NUMBER: 60/098, 909
EARLIER FILING DATE: 1998-09-02
EARLIER FILING DATE: 1998-06-13
EARLIER FILING DATE: 1998-04-17

NUMBER OF SEQ ID NOS: 49

SOFTWARE PATENTING DATE: 1998-04-17

NUMBER OF SEQ ID NOS: 49

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     Sequence 41, Application US/0929225

Sequence 41, Application US/0929225

Patent No. 645566

GENERAL INFORMATION:

APPLICANT: Mcdall, Catherine A.

APPLICANT: Hunter, Shirley Wu

APPLICANT: Weber, Eric R.

TITLE OF INVENTION: NOVEL DERNATOPHAGOIDES NUCLEIC ACID MOLECULES, PROTEINS

TITLE OF INVENTION: NOVEL DERNATOPHAGOIDES NUCLEIC ACID MOLECULES,

FILE REFERENCE: AL-2-C3

CURRENT APPLICATION NUMBER: US/09/292,225

CURRENT APPLICATION NUMBER: US/099,209

EARLIER APPLICATION NUMBER: 60/098,909

EARLIER FILING DATE: 1998-09-13

EARLIER FILING DATE: 1998-04-17

EARLIER FILING DATE: 1998-04-17

EARLIER FILING DATE: 1998-04-17

EARLIER FILING DATE: 1998-04-17
